DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-13 and 20-28, drawn to a device for producing objects.

Group II, claim(s) 14-16 and 29-30, drawn to a mold for producing objects.

Group III, claims 17-19 and 31, drawn to a method for producing objects.

the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (2. The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The technical feature common to Groups I - III is **the production of an object comprising a housing device, which houses a mold, which is filled with material to produce the object. Furthermore, the housing device can be enlarged by moving a movable stable part to help remove the object.** This cannot be a special technical feature under PCT Rule 13.2, because this technical feature is known in the prior art.

Graen DE 101 36 391 teaches a **housing device (1)**, a **mold (3)**, and a **movable object (2)**, to remove the produced object (dark bolded line filled with (5)).

Therefore, a holding that these three groups do not have a single inventive concept is proper.

Art Unit: 1791

2. A telephone call was made to Attorney Gregory Degrazia on 1/26/2009 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
